

ENERGY & AUTOMOTIVE EVENT

The Transformation of the Energy and Automotive Industries

Thursday 8 November 2018
Hotel Savoyen Vienna

Dynamic collaboration that takes you to powerful and unexpected places

Firmly rooted in local soil, in flexible collaboration on a global scale, we help you see the most extraordinary opportunities, often from unexpected places. With us as your partner, you're equipped with the agility to navigate market changes, enter creative and powerful new directions, and realize your vision.

Renew your knowledge of energy and let our experience fuel your drive into the future of automotive. Come along and hear from the most impressive companies in both sectors as they share their insights and visions for the future. In addition to hearing informative presentations, there will be panel discussions and the opportunity to meet the presenters in person. When we join forces — **we can get to new and better places together.**
